DOUBLE 041 Sunlounger

design RODOLFO DORDONI

DESCRIPTION

Sunlounger for outdoor use.

STRUCTURE

Powder coated aluminium. Reclining back, 3 positions

3D NET

Polyester three-dimensional net, with a pleasant hand-feel, and elevated technical performance: on the right side of the material the weave is more open in order to facilitate the drainage of water, while on the reverse side it is slightly more closely woven to hold the internal padding more effectively. A gap between the two sides gives softness to this fabric and enhances its drain-through capacity, ensuring a quick drying. Excellent color fastness to light. Not fire resistant.

CUSHIONS
